

DOT Container

Fibertech Plastics has created a unique DOT shipping container. Single-wall, one piece design with bolted on pallet, made of rotationally molded polyethylene resin, which produces a strong finished product. The certified DOT container meets critical hazardous material shipping standards, featuring a sealable lid and security fastening closures making it ideal for transport. Other key features are smooth, flat interior surfaces, with rounded corners to alleviate product points and allowing easier product flow and cleaning.

Features and Benefits

- Lid with Foam Rubber Seal
- 4 Bolted on D-Rings/ Tension Straps
- 4-Way Entry
- Ergonomic Nesting/ De-nesting Design
- Flat Interior Bottom
- Replaceable Pallet Base
- 11H2 Certified
- Durability
- Easy to Clean
- Four Year Warranty
- 100% Recyclable
- Stackable

Options

- Stenciling
